

LSJ, Inc. — Travel Policy

Doc ID: POL-008 · Category: Finance · Version 3.5 · Last updated 2026-02-14 · Owner: Finance

1. Purpose and Scope

This policy governs business travel booking, class of service, lodging, per diems, and traveler safety for LSJ employees. Reimbursement mechanics and approval chains are in the Expense and Reimbursement Policy (POL-003). Personal travel combined with approved international remote work is governed by POL-002, Section 5, not by this policy.

2. Booking

All business travel must be booked through the LSJ Travel portal. Flights should be booked at least 14 days in advance where feasible; bookings inside 7 days require manager justification in the booking record. Trips estimated over \$3,000 total require department head pre-approval before booking.

3. Air Travel

Flight duration	Permitted class
Under 6 hours	Economy
6 hours or more (international)	Premium economy
Over 10 hours, overnight, working next morning	Business, with VP approval

Seat-selection fees up to \$60 per round trip are reimbursable; upgrades beyond the permitted class are personal expenses (POL-003, Section 9). Employees keep loyalty points earned on business travel.

4. Lodging

Standard rooms at business-class hotels. Nightly caps excluding taxes: \$250 in standard U.S. cities; \$350 in high-cost cities (New York, San Francisco, London, Tokyo, Seoul); \$200 elsewhere internationally. Caps may be exceeded by up to 20% during major conferences with manager approval noted in the expense report.

5. Meals — Per Diem

Travel days use per diems instead of itemized meal receipts (POL-003, Section 5): \$75 per full day domestic, \$100 per full day international, half rate on partial travel days. Per diems cover meals, coffee, and incidentals; client entertainment remains itemized under POL-003, Section 5 with required pre-approvals.

6. Ground Transportation

Use the most economical reasonable option: rideshare/taxi standard tiers, public transit, or economy rental cars (insurance included through the corporate rate — do not purchase counter insurance domestically). Mileage for personal-vehicle business use is reimbursed at the prevailing IRS rate. Commuting between home and the assigned office is never reimbursable (POL-003, Section 9).

7. Devices and Security While Traveling

Company devices must follow POL-007, Section 6 at all times while traveling: no devices in checked luggage, VPN required on hotel and airport networks, and the clean-device program for eligible roles and destinations. Report lost or stolen devices within 24 hours (POL-007, Section 9).

8. International Trips — Additional Requirements

Employees must register international business trips in the travel portal at least 10 business days ahead for visa and insurance verification, and check the Restricted Country List (POL-007, Section 6.4) before booking. Business travel does not count against the international remote-work allowance in POL-002, Section 5.1; however, extending a business trip with remote work days does count and requires the POL-002 approvals in advance.

9. Traveler Safety

The Company provides travel insurance and 24/7 emergency assistance through the travel portal. Employees should share itineraries with their manager for international trips and follow destination guidance issued by Security.

10. Non-Compliance

Out-of-policy bookings without documented approval may be reimbursed only up to policy caps, and repeated violations are handled under POL-005, Section 10.
